## RELEVANT SKILLS

- Web Development (Laravel, (PHP), Python, Joomla, WordPress)
- JavaScript, HTML, CSS)
- Content Management Systems (Joomla, WordPress)
- Database Management (MySQL, SQL queries)
- Version Control (Git, GitHub)
- UI/UX & Responsive Design
- SEO & Website Performance Optimization
- Networking & IT Support
- CMS Hosting & Maintenance

## Soft Skills

- Communication,
- Problem-Solving
- Time Management

## CAREER OBJECTIVE

I am a solution-driven developer committed to using technology to solve real-world problems and make life easier for people and businesses. With a strong foundation in web development, CMS management, and IT support, I have built and contributed to multiple software projects, including web applications and automation tools, which are showcased on my GitHub profile. I aim to create impactful digital experiences that are functional and meaningful. I strive to build tools, systems, and platforms that serve users, empower teams, and drive lasting value through innovation and simplicity.

## PROFESSIONAL EXPERIENCE

### January 2024 – Present Junior Software Developer, Facebook

- Participated in the design, development, and maintenance of internal tools and user-facing applications.
- Wrote clean, scalable code using JavaScript (React), Python, and GraphQL.
- Collaborated with cross-functional teams to improve user experience and system performance.
- Conducted code reviews, debugged applications, and implemented feature updates based on user feedback.
- Contributed to documentation and supported the deployment of new features through CI/CD pipeline.

### January 2022 – December 2023: Freelance IT Technician & Web Developer (*Self-Employed*)

- Repaired and maintained client computers, installed software, and performed virus troubleshooting and recovery.
- Designed posters, business cards, and promotional graphics using Adobe Illustrator and Canva tools.
- Developed responsive websites for small businesses using Laravel, HTML, CSS, and JavaScript.
- Handled basic networking setups and configuration for home offices and cyber cafés.

### September 2019 – December 2019- IT Intern at South Eastern Kenya University (SEKU)

- Assisted the university's IT department with software and hardware support for administrative offices, computer labs, and lecture halls.
- Helped set up and configure new machines, installed essential software, and ensured systems met institutional standards.

## Hobbies

- Playing football
- Dancing
- Watching Movies

- Diagnosed and resolved network connectivity issues for staff and students across multiple departments.
- Participated in backend scripting and maintenance of internal systems using PHP and MySQL.
- Documented technical issues and resolutions for knowledge sharing and future troubleshooting.
- Gained hands-on experience with printer maintenance, LAN setup, antivirus deployment, and user account configuration (Active Directory basics).
- Shadowed senior IT staff in managing the server room and learned about data backup protocols and power management systems.

## EDUCATION

### **2018 – 2021: Bachelor's Degree in Information Communication Technology (ICT)**

**University of Nairobi (UoN), Kenya**

- Focused on software development, computer networking, database management, and systems analysis.
- Completed coursework in programming languages, including PHP, Java, C++, and Python.
- Gained practical skills in hardware maintenance, networking, and ICT support.

### **2014 – 2017: Kenya Certificate of Secondary Education (KCSE)**

**Lenana School, Kenya**

### **2013 – 2014: Lenana School, Kenya**

### **2009 – 2012: Kenya Certificate of Primary Education (KCPE)**

**Makutano A.I.C Boarding Primary School, Kenya**
